PERSONAL STATEMENT

Highly motivated final-year B.Tech Computer Science & Engineering student with a strong interest in Full-Stack Development. Currently working as an AI-assisted Frontend Developer, building and deploying modern web applications while continuously expanding my technical skills.

WORK EXPERIENCE

AI-Assisted Frontend Developer

Personal Projects (2025 – Present)

- Developed and deployed frontend web applications using React.js and modern web technologies.
- Used AI-assisted development workflow for code generation, customization, debugging, and implementation.
- Built responsive websites and applications based on project requirements.
